Sir:

In response to the Office action dated March 27, 2003,  
please amend the above-identified application as follows:

In the Claims:

Amend claims 1, and 4 as follows:

1. (Amended) A method in tail threading in a paper machine, in which the paper web is dried in production by means of a plurality of dryer groups consisting of a dryer section, and in which tail threading the threading tail is cut, taken as wetted to a finishing device, and spread to its full width for production, and in which method, before the threading tail is taken to the
